Comments about your tutorial

1. Nathan was a great tutor. Was able to articulate the content much clearer than the lecturer and provided great notes that assisted my learning.
2. Explanation is good. sometimes some guys in the tutorial are too noisy.
3. Nathan was a great tutor and was always so helpful – gave the best summary slides ever BUT the tute work itself felt like a monumental waste of time – why in gods name were all of the tutes EViews based when it was never going to be on the exam and why was there new techniques in tutes which weren't in the lectures – I really wish tute work was more similar to the questions on the exam because now, finding resources for exam revision is so hard
